

# THE DOT JOBS UNIVERSE

## Welcome to the Universe

A revolutionary Internet platform is on the horizon where job seekers can find employment opportunities by city, state, geographic region, country, occupation, skill, etc.—the search combinations are endless, yet highly targeted.

DirectEmployers Association Members, such as IBM, Hyatt, US Cellular, Whirlpool and hundreds more, will manage hundreds of thousands of .jobs domains for the benefit of all employers, industries and job seekers.

When the Top Level Domain (TLD) build-out is complete, all jobs will automatically appear on the appropriate location and occupational .jobs sites—creating the new standard for listing jobs online.

"The .jobs initiative provides a single, unified platform comprised of hundreds of thousands of employment sites, highly trusted by Internet search engines that will allow all employers, regardless of size, to list their jobs free-of-charge."

*Rhonda Stickley,  
Sr. Director, Talent Acquisition,  
Providence Health & Services*

What separates one job listing from another? Members of DirectEmployers Association will have their logo in each job listing—catching the eye of job seekers (see above).

Premium Placement is available on targeted .jobs pages and maximize visibility of branding ads and/or job listings (see right).

Visit Resources on [www.universe.jobs](http://www.universe.jobs) for more information.
